

Balcony posts 31510.1060

Technical data	
Height of C-channel (mm)	1000
Slotted hole, Ø 11 x 26 mm	2
Fixed bend mm	60
Bottom plate mm	160 x 100 x 10
C-channel, mm	50 x 40 x 3

Henceforth we also offer our customers a maximum security along balcony constructions. The development of a special C-profil, produced as usual with a high quality in our own manufacture and prepared for approval by the Institut für Konstruktion und Materialwissenschaften der Universität Innsbruck, Arbeitsbereich Holzbau. The BSP (Balkonsäule Pitzl), another top product of Pitzl wood connectors. For doweling or front-side mounting, with or without bend and for every required high the BSP always offers a functional, efficient and user-friendly solution. A high-quality hot-dip galvanization provides a perfect optics and the required corrosion protection, also in service class 3. The characteristic maximum power the holm can take is 2,12 kN. A ETA-certification enables an assembly conforming to standards.

* Further static values can be found in our statics book or the ETA .

** Steel failure decisive Values in brackets for service class 3* Further static values can be found in our structural analysis book or the ETA .
