

Post bases 10529.7098

Technical data

Description	Zentrierspitze
Installation height mm	175 - 235
Maximum characteristic load-bearing capacity (kN) *	41,3**
Bottom plate mm	110 x 110 x 6
M 24 thread at the bottom	90
12 mm hole at the bottom	4
Upper plate mm	Ø 96 x 8
10.5 mm hole at the top	4

Post bases, Plug-in system Z Turn – Click, the new innovative post base system. With few handlings, without time-consuming and inconvenient screwing the new plug-in system allows an efficient solution of assembly. Maximal load capacities in compression, traction and horizontal stresses are guaranteed through the optimal material thickness of the post base. A height adjustment is possible even when mounted and under heavy load. * For further static values see design manual or ETA 10/0413 ** Steel failure partial safety factor is recommended $\gamma_M 1.0$ for a maximal adjustment height of 215 mm
