

Tools 50934.1000

Technical data

Material	10
Ø mm	20
Total length (mm)	52
Ø Drill chuck diameter (mm)	20 x 8 x 5
Mounting External thread	Ø 8 mm
Adjustment range	8

Grooving cutter These combinations are essential for a optimum milling groove. The exact milling texture for the respective connector is obtained. Therefore a quick installation of our connectors without an additional calibration is feasible. In combination with our milling templates (page 115) you can also mill in the upper parts of our post bases.
